ARNODECLERCQ

Arno Declercq, born in 1994, is a Belgian designer and art dealer renowned for his minimalist and functional furniture designs, meticulously crafted for contemporary, sustainable lifestyles.

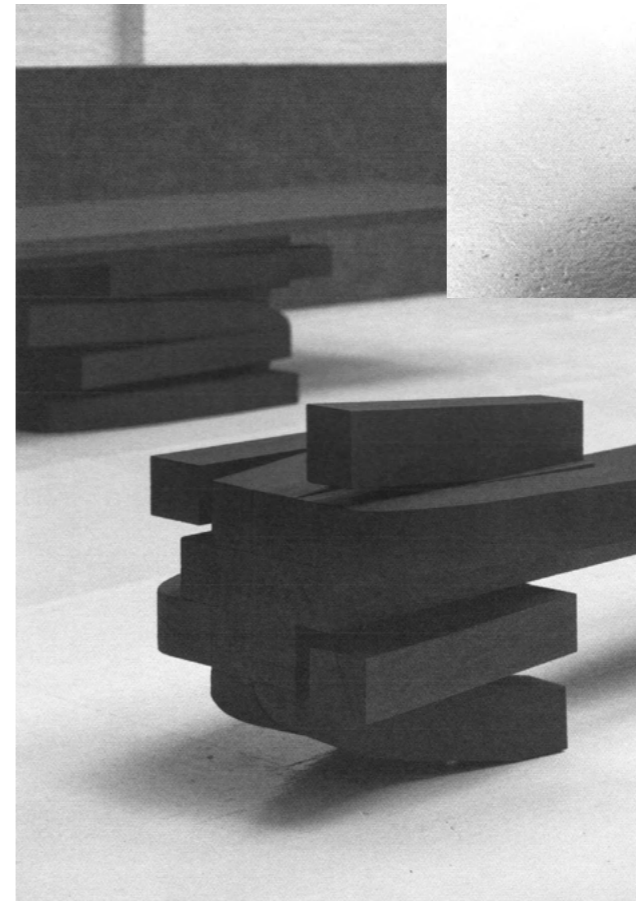

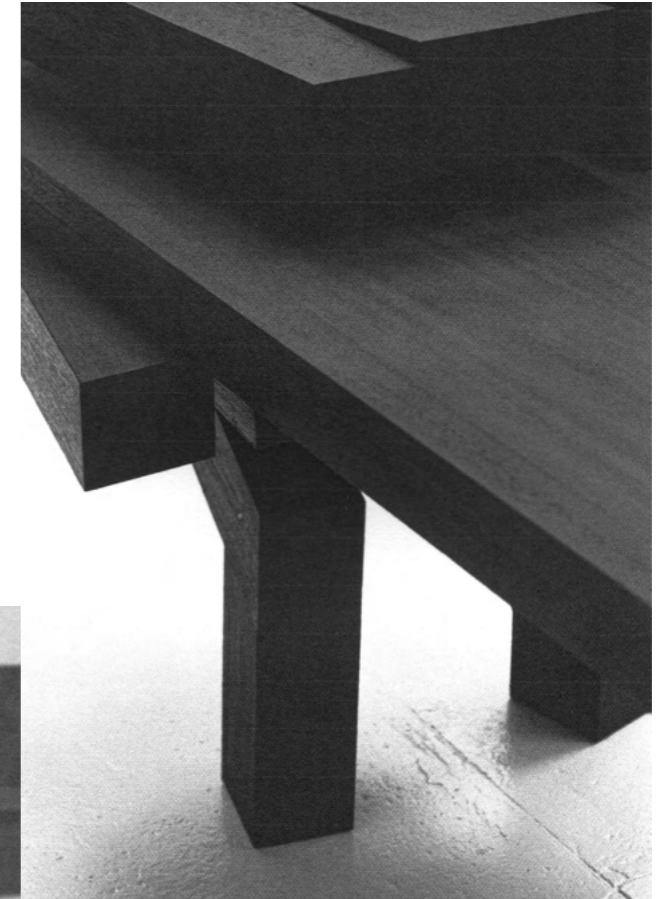

Drawing from a rich palette of materials including wood, metal, and stone, Declercq's furniture seamlessly melds with diverse environments while retaining its distinctive essence and character.

Nurtured within a family steeped in the traditions of aesthetics, Arno inherited a profound reverence for design from his parents.

His father, a graduate at the Royal Academy of Arts Fashion Department imbued him with a keen eye for design, while his mother's boutique, showcasing beautiful avant-garde brands, further honed his discerning aesthetic sensibilities. Inspired

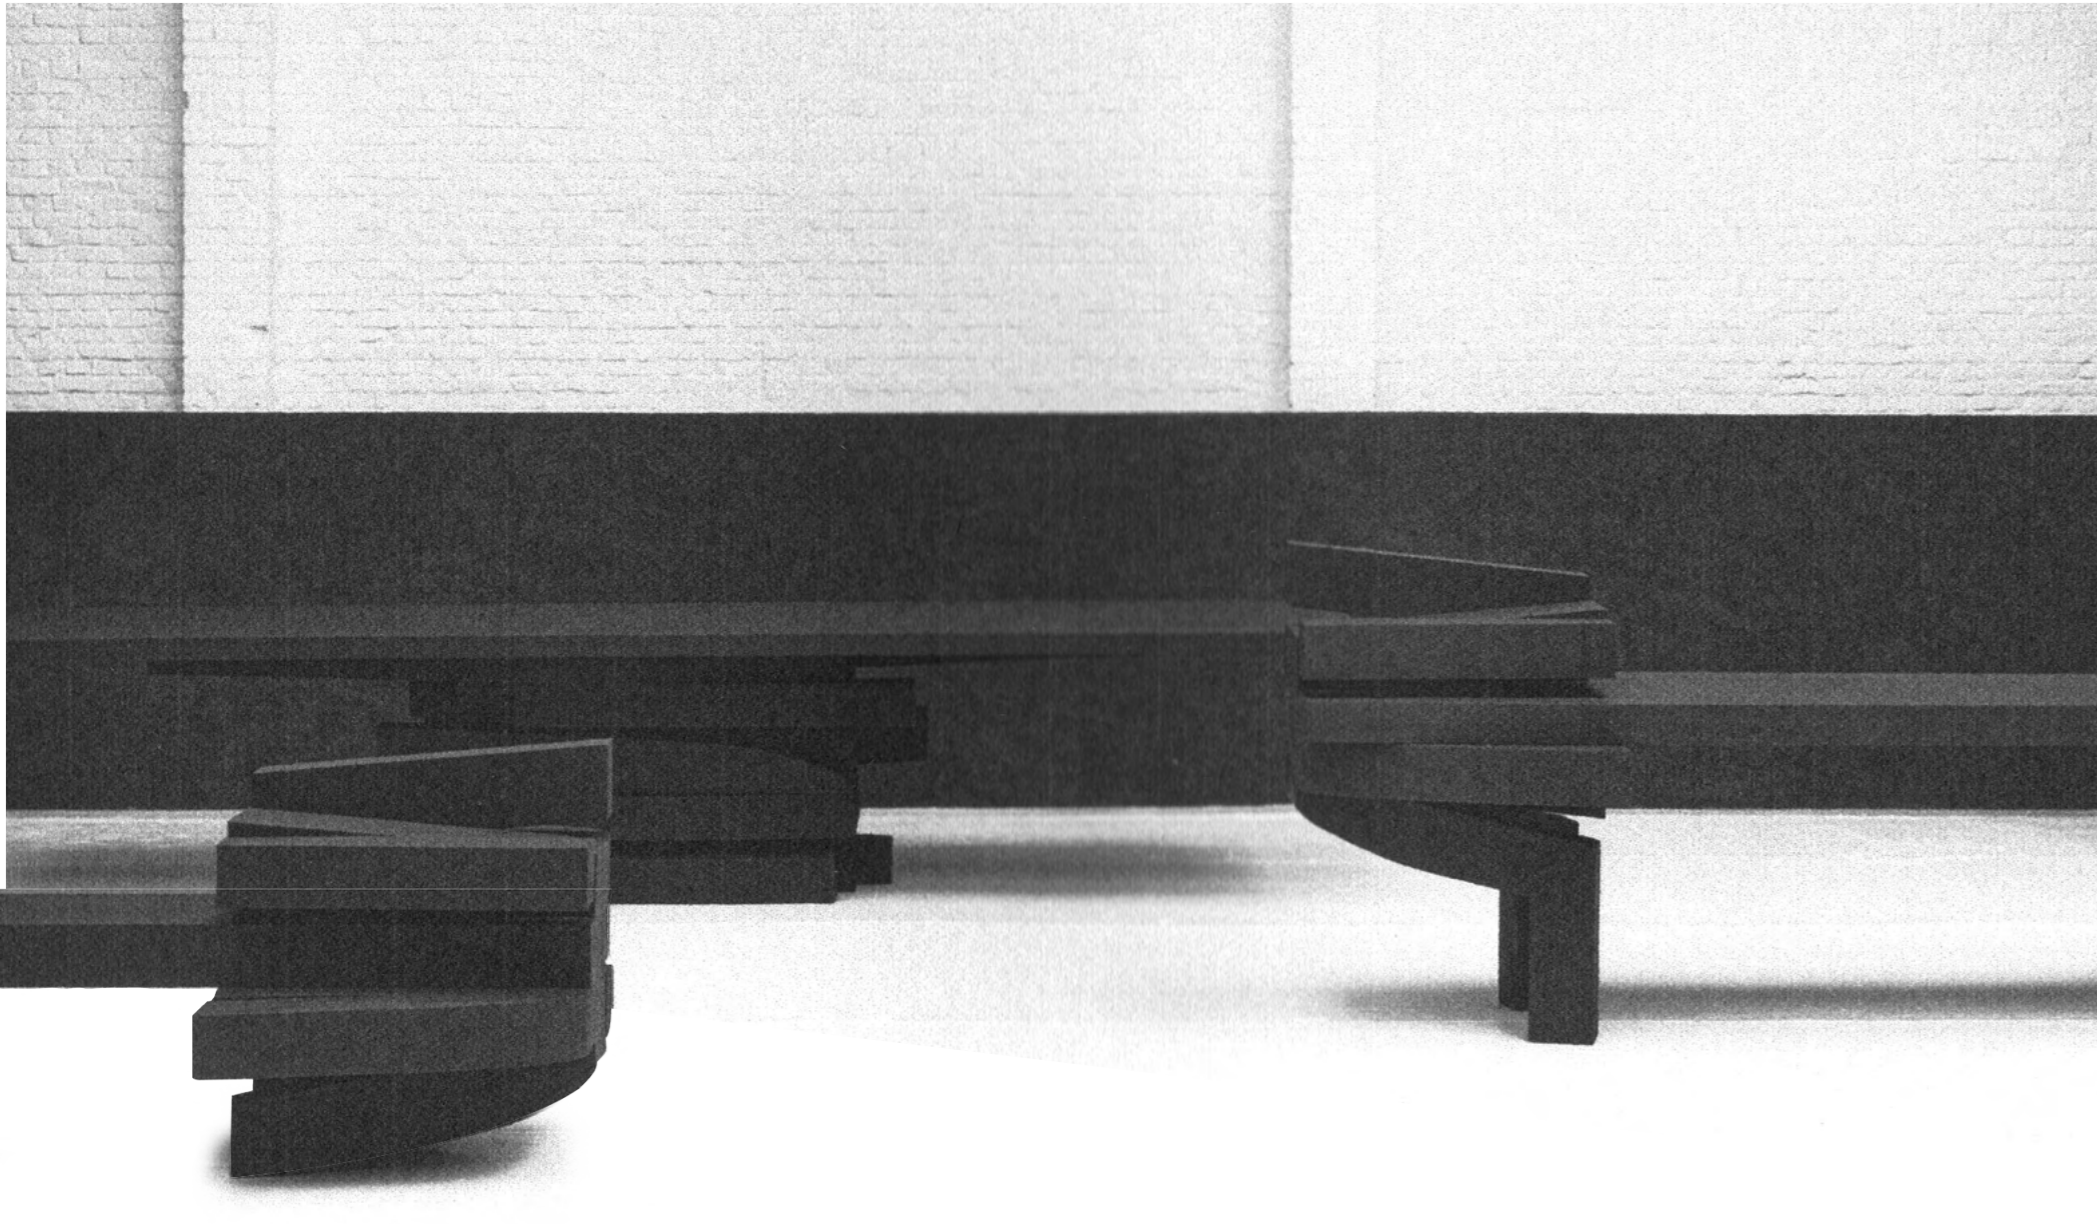

by his parents, Arno pursued interior design studies. Starting to create bespoke pieces since 2017, he garnered attention through strategic use of social media platforms. His work, steeped in the grandeur of bygone interiors, mixes influences from architectural bunkers, ancient art forms, and diverse tribal cultures. Arno dedicates himself to offering his work in custom sizes, alongside providing comprehensive interior decoration services.

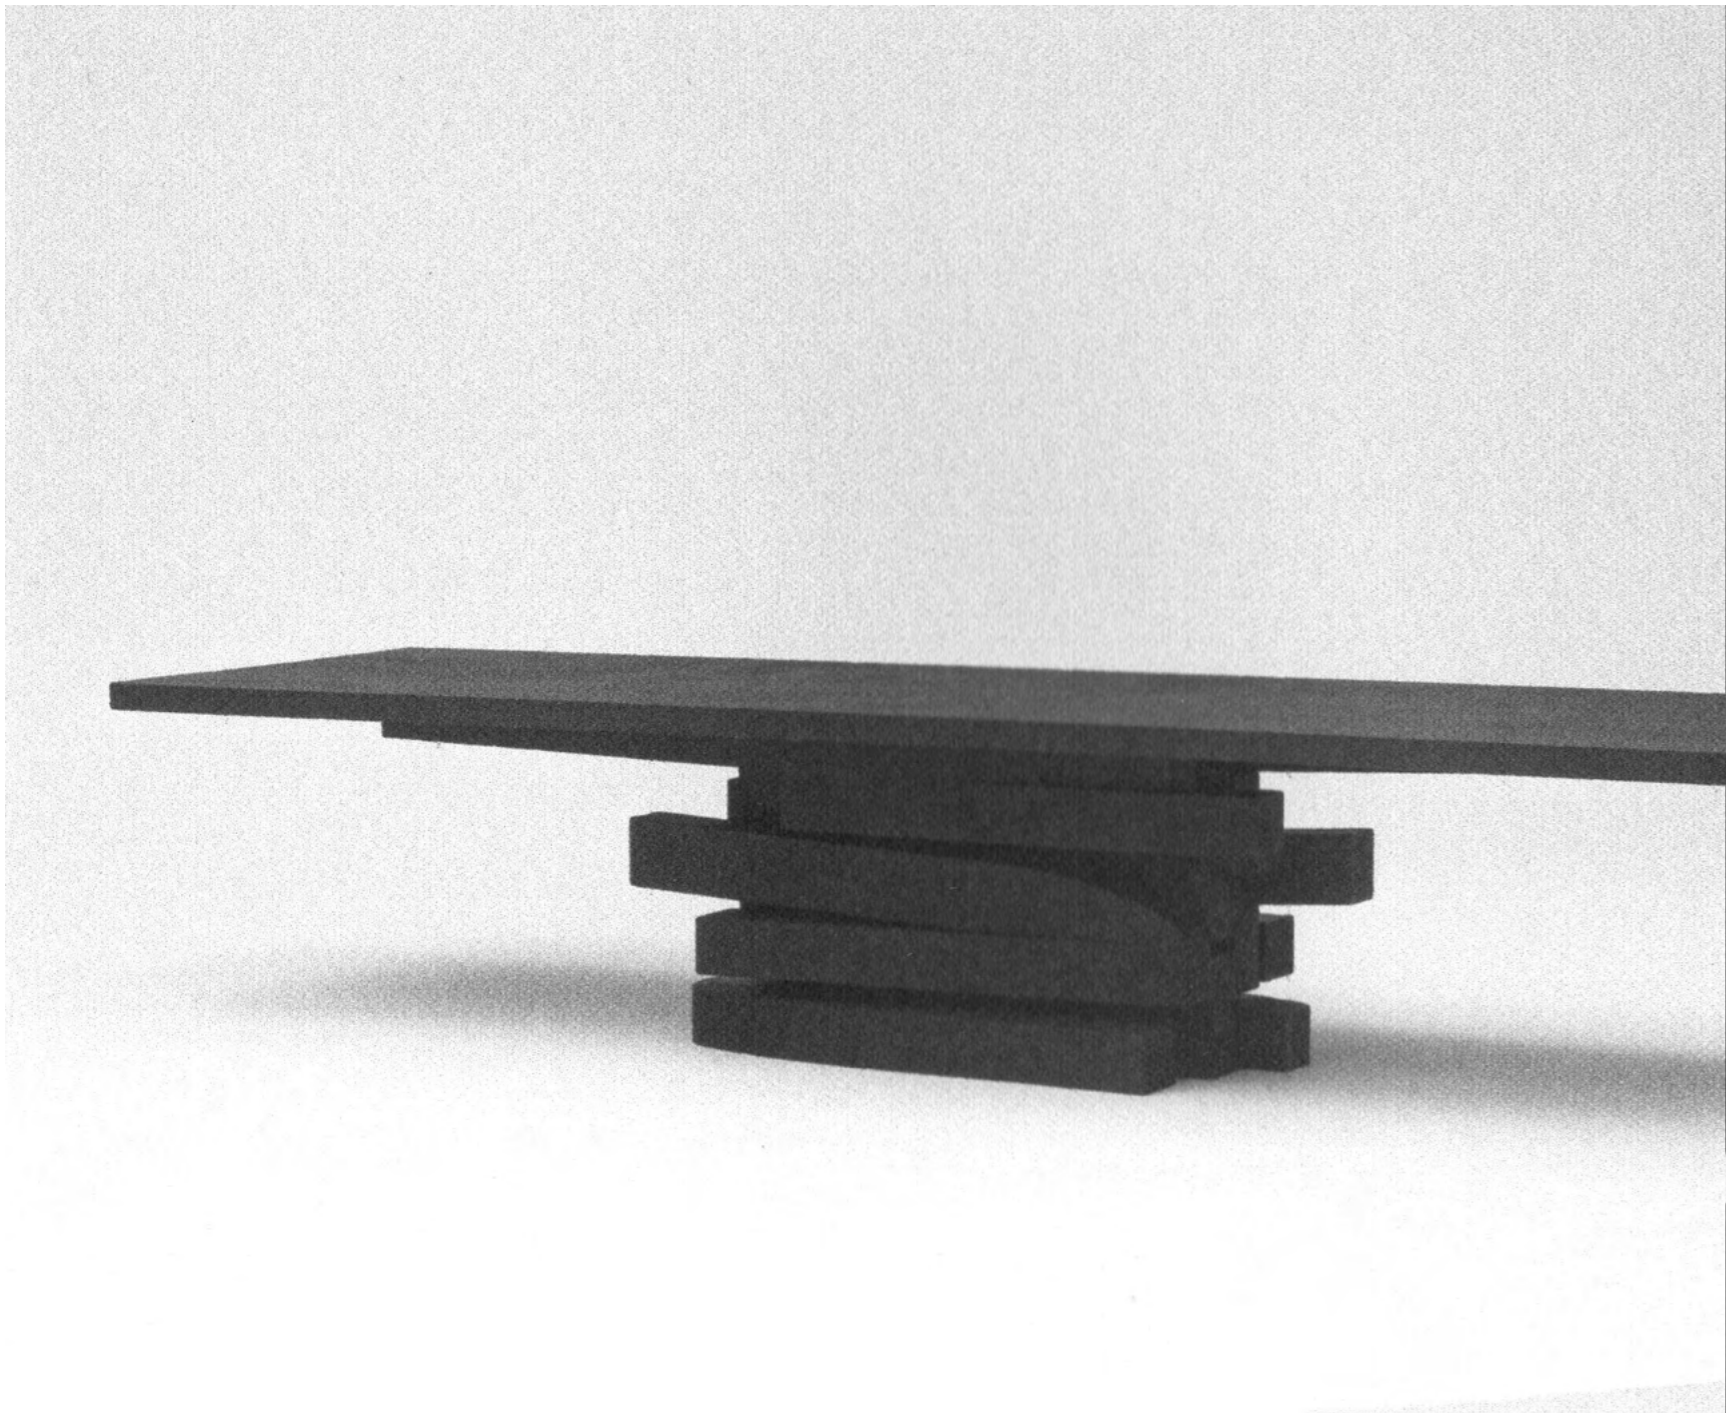

All work is created by Arno and his team in their ateliers in Belgium, making it possible to offer the best tailored service he extended his reach to luxury brands like Fendi, Saint Laurent, and Hennessy, as well as hotels and restaurants. In November 2023, recognising the evolving landscape, Arno opened his first private 500 square meter showroom within the heart of Antwerp, Belgium.
